Book Worksheet 5

Computers Come Home

**Read:** 1970–1979 · Computers as Creative Tools (1980–1989)*The History of the Computer* · Rachel Ignatofsky · Pages _____ to _____

The Big Picture

The microprocessor put a whole CPU on one chip. Suddenly computers fit on a desk, and people used them to write, draw, make music, and play games.

Part 1 · Influential People & Inventions

Fill in the table as you read.

Who / What	What did they create or do?	Why did it matter?
Intel 4004 (1971)		
An Wang		
Bill Gates & Paul Allen		
Steve Jobs & Steve Wozniak		
Creeper (1971)		
Graphical user interface (GUI)		

Part 2 · Fill It In

Use each word from the word bank once.

microprocessor

games

GUI

worm

BASIC

Wozniak

1. A _____ puts an entire CPU on a single chip.
2. Creeper (1971) is known as the first computer _____ — a program that copies itself to other computers.
3. Bill Gates and Paul Allen wrote a version of _____ for the Altair 8800.
4. Steve Jobs and Steve _____ started Apple in 1976.
5. A _____ lets people click on windows and icons instead of typing commands.
6. In the 1980s, computers became creative tools for art, music, writing, and video _____.

Book Worksheet 5

Check Your Understanding

Part 3 • Timeline

Order these events from earliest (1) to latest (6). Write the number in the box.

- | | |
|---|---|
| ☐ A. IBM Personal Computer | ☐ B. Intel 4004 microprocessor and Creeper |
| ☐ C. Apple is founded | ☐ D. Altair 8800 kit computer |
| ☐ E. Apple Macintosh | ☐ F. Apple II goes on sale |

Part 4 • Check Your Understanding

1. What made the personal computer possible?

- A. Vacuum tubes got bigger
- B. The abacus was improved
- C. The microprocessor put a whole CPU on one small chip
- D. Punched cards were invented

2. Creeper connects most to which AP CSP topic?

- A. Safe computing — malware that spreads between computers
- B. Binary search
- C. Data compression
- D. Crowdsourcing

3. Why did the graphical user interface matter so much?

- A. It made computers faster at math
- B. It replaced the need for a CPU
- C. It made computers easy for non-experts to use
- D. It stopped all viruses

Part 5 • Stories from History

Pick one story or person from this section that surprised you. **Who** was involved, **what** happened, and **why** does it still matter?

Part 6 • Unit 5.2 Connection

In the late 1970s and 1980s, a home computer cost thousands of dollars. Who had access, and who didn't? Describe the **digital divide** today and one way your school or community could help close it.
